We do not have a building permit,

There is a demo permit for 2019 and electrical permits for 2019 and 2020, and an ordinance violation for 2018 and a plumbing permit for 2022.

The plumbing has a failed underground inspection from June 22, 2022,

The electrical service was approved.

Do you have any knowledge of a building permit being issued or filled out for 406 W. Main Street?

Hi Debbie,

I'm checking on the status of the Building Permit for 406 West Main Street. I submitted the application in 2018 and was working with your plan reviewer to get approval somewhere along the way things stalled out.

The Village President stopped by Bryan Cole's store last fall asking about our plans for cleaning the site up. We explained about the building permit. She told us to get started but to ensure nothing was covered that would require inspection.

We are getting to the point where we will require inspection or our work will have to come to a halt. I'm sure the Village is just as anxious as we are to eliminate this eyesore of this incomplete project.

I'm reaching out to you because you have helped me in the past obtaining the electrical and now recently our plumbing permit. Hopefully you can do the same with the

building permit.

I've attached the latest revision of the plans that I mailed to you back in 2019.

Thanks in advance for your help.
