Our ordinance states:

Site plan review is required for all proposed uses and certain existing uses within the village where an alteration, addition, expansion, change or conversion constitutes an increase or reduction to the existing structure or use of more than 500 square feet or ten percent, whichever is less; or would require a variance from the provisions of this chapter, regardless of its size. Site plan review shall also be required prior to the paving of any off-street parking for any use for which off-street parking is required by this chapter.
